

Devitemp™ Fan Heaters

Applications

- Building sites, farm buildings, factory halls, stock halls, garages and warehouses

Devitemp™ heating fans can be transportable or stationary. Used on building sites, in farm buildings, factory halls, stock halls, garages and warehouses. Devitemp™ are available in two varieties: Type A from 2-6 kW and Type B from 10-18 kW.

Devitemp™ heating fans are a portable, high output convection fan, designed for commercial and industrial applications where a comfortable temperature and humidity level is required.

Devitemp™ heating fans can be permanently connected and readily relocated.

BROCDEV123.1

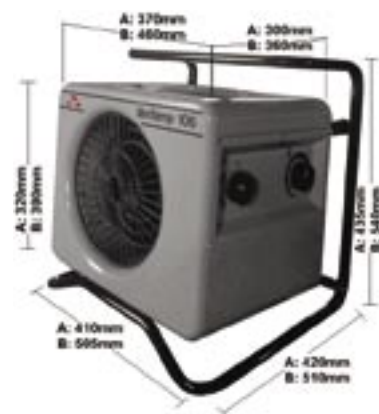

Devitemp™ Fan Heaters

Features

- Available in two varieties: Type A from 2-6kW and Type B from 10-18kW
- Electro-galvanised and powder-enamelled with rust-resistant heating element

Technical Data

Air Volume p/h - Type A	400/650m ³
Air Volume p/h - Type B	800/1,400m ³
Dimensions - Type A	See drawing
Dimensions - Type B	See drawing
Delayed action	0 - 24 hours
Thermostat	5°C - 35°C
Output selector	Half/Full
Temperature protection	80°C
Moisture proof	IP44
